

UTILITY SERVICES GROUP

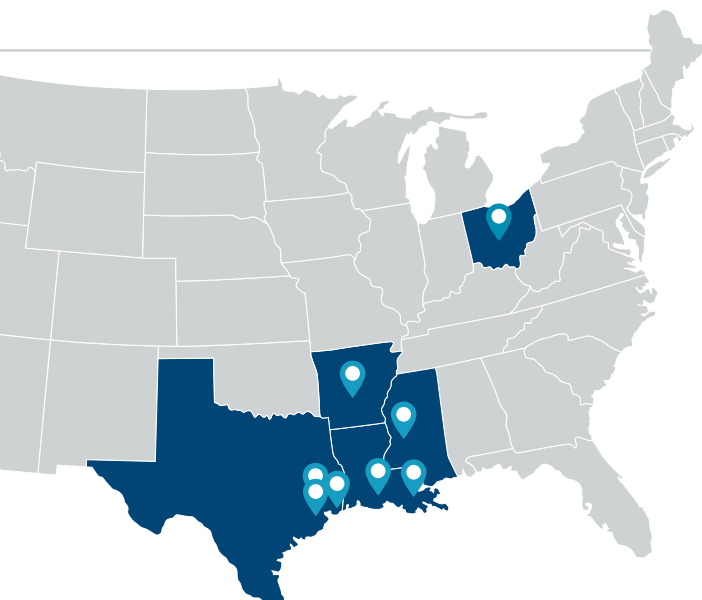

A COMMITMENT
TO PEOPLE, EFFICIENCY,
AND QUALITY

AT EDG, OUR UTILITY SERVICES GROUP PRIDES ITSELF IN PROVIDING OUR CLIENTS WITH COMPREHENSIVE SUPPORT FOR THEIR TRANSMISSION, SUBSTATION, AND DISTRIBUTION PROJECT PORTFOLIOS.

EDG's Utility Services Group provides experienced and qualified Project Management, Construction Management, Design, Engineering, and other project professionals to support your needs. With diverse Utility industry knowledge, our professionals bring firsthand expertise to your critical and demanding projects.

At EDG, we are committed to delivering projects safely, on schedule, and within budget. Our team customizes project delivery for each client based on their standards while combining lessons learned from past projects and industry best practices. We also understand the importance of Health, Safety, and Environmental (HSE) issues and our team works proactively to incorporate client-specific requirements into every project.

EDG has multiple offices to support your Utility needs.

SERVICES AND CAPABILITIES

PROJECT MANAGEMENT SERVICES

EDG offers Project Managers experienced within PMI principles and versed in the stage gate approach to effectively deliver projects. Our Project Managers can lead your projects through Scope Development, Engineering, Bidding, Execution, and Closeout. We also offer Project Controls services including cost estimating, project scheduling, quantitative risk analysis, and procurement.

CONSTRUCTION MANAGEMENT SERVICES

We offer Construction Management professionals to lead daily construction activities such as quality inspection, issue resolution, landowner interface, work planning, outage coordination, and an overall safety culture. These highly experienced Construction Managers, Field Supervisors, and Safety Specialists are well versed in Substation, Transmission, and Distribution construction.

ENGINEERING SERVICES

EDG has the capability of addressing all of your engineering requirements for major capital projects from concept to execution, as well as your day-to-day maintenance needs. These services include transmission line design, substation layout, distribution engineering, system protection, and start-up.

PROJECT SERVICES

EDG offers professionals that execute a comprehensive solution for Project Controls services including scheduling / planning, quantitative risk analysis, business intelligence (BI), data analytics, procurement, and document control. EDG also provides Land Management services to lead ROW abstracting, land acquisition, and access negotiations.

To find out how EDG's Utility Services Group can help execute your next successful project, give us a call or visit our website for more information.
